Ashville, Ala., Aug. 23 .-- Walter Blankenship was killed and Arthur Blankenship probably fatally wounded in a battle here to save the negro, Jim Brown, from the vengeance of a mob after he had been tried and sentenced to be hanged on Sept. 20 for rape. A small boy, the son of James Hanley, was also slightly wounded. The Blankenships were brothers, and, it is said, have been in town since Monday trying to stir up the trouble. Walter died within two hours after being shot and Arthur is in a precarious condition.

The attempt of the mob to gain possession of the negro followed one of the swiftest and fairest trials ever witnessed. The judge and court officials were on the defensive to suppress the rising anger of the crowd as detail after detail of the crime was told by the witnesses for the state. Twenty-eight deputies, armed with pistols and shotguns, were stationed in the front hall and at the windows of the courtroom. The first sign of an outbreak came when one man from the outside with a pistol in his hand started to mount the stairway. He was followed by two or three others. Several shots were exchanged and the mob leaders retreated to the outside, when two members began firing into the windows. Arthur Blankenship was hit first and his brother was shot while emptying his revolver in the direction of the windows above.

A hard rain began falling. The bodies of the wounded were removed and the crowd scattered about in front of the stores across the street. The officers took advantage of this lull and spirited the negro away in charge of two special deputies. He was gotten safely aboard a freight train for Birmingham.

Unless a Government Is Established on a Strong Basis United States Should Take a Hand-Monroe Doctrine Has Its Duties as Well as Its Rights-Pledged to Do Right by the Pan-American Congress.

London, Aug. 23.-An editorial writer in The Daily Graphic, dealing with the troubles in South America, says: "The situation is intolerable and causes uneasiness in the United States. Unless a government is established on a sound basis intervention Eight Hundred Men and Ammunition by the United States will become unavoidable."

Comparing the condition on the isthmus now with that existing in Egypt at the time of the construction of the Suez canal, the writer says: States to assume control before an interoceanic canal can be built."

The Times says: "No exception can be taken to Mr. Hay's attitude toward the Central American trouble. Colombian Insurgents Victorious in

the Battle Near Pasto. New York Aug 22-Dr. A. J. Restrepo, diplomatic agent of the Liberal party now attempting to take possession of the government in Colombia. received a dispatch from the Liberal agent at Quito regarding the recently reported battle w.th the government or Clerical forces at Pasto. The dispatch was as follows:

"Quito, Aug. 20 .- The battle near Pasto was fought on Saturday, the 17th, and the Liberal generals, Lergio Perez and A. Rosas, won a great triumph over the Clericals."

Through his secretary Dr. Restrepo explained that Pasto, where the battle was reported to have been fought, was in the extreme southern part of Colombia, 2,000 miles from where General Uribe-Uribe was operating, and that it indicated successful execution of the plans of campaign mapped out by General Uribe-Uribe and forwarded to the commanding officers of the other Liberal forces before the general left New York early in the sum-

A SHERIFF'S POSSE AT ASH-VILLE, N. C., FIRES INTO A MOB.

ONE DEAD, TWO WOUNDED

Were Trying to Get at a Negro Convicted of Assault and Sentenced to Hang-Father of the Victim Pleads With the Crowd to Let Justice Take Its Course-After the Shooting the Prisoner Is Taken to Birmingham.

Ashville, Ala., Aug. 23.--Walter Blankenship was killed and Arthur Blankenship probably fatally wounded in a battle here to save the negro, Jim Brown, from the vengeance of a mob after he had been tried and sentenced to be hanged on Sept. 20 for rape. A small boy, the son of James Hanley, was also slightly wounded. The Blankenships were brothers, and, it is said, have been in town since Monday trying to stir up the trouble. Walter died within two hours after being shot and Arthur is in a precarious condition.

The attempt of the mob to gain possession of the negro followed one of the swiftest and fairest trials ever witnessed. The judge and court officials were on the defensive to suppress the rising anger of the crowd as detail after detail of the crime was told by the witnesses for the state. There was no evidence for the defense. As Brown said afterwards in his confession there was nothing the witnesses he had summoned could say in his behalf.

The clash with the sheriff came in half an hour after Judge Pelham had pronounced the sentence. At the request of Judge Pelham, J. L. Garrett, the father of the girl outraged by Brown, mounted a table and spoke,

### Pleading for Peace.

After some difficulty the courtroom was cleared. Sherift North thought it unwise to attempt to take Brown to the jail a few blocks away, for the crowd was rapidly increasing around the front door of the courthouse Twenty-eight deputies, armed with pistols and shotguns, were stationed in the front hall and at the windows of the courtroom. The first sign of an outbreak came when one man from the outside with a pistol in his hand started to mount the stairway. He was followed by two or three others. Several shots were exchanged and the mob leaders retreated to the outside. when two members began firing into the windows. Arthur Blankenship was hit first and his brother was shot while emptying his revolver in the direction of the windows above.

A hard rain began falling. The bodies of the wounded were removed and the crowd scattered about in front of the stores across the street. The officers took advantage of this lull and spirited the negro away in charge of two special deputies. He was gotten safely aboard a freight train for Birmingham.

Cattle From Drought-Stricken States

Brought to South Dakota. Sioux Falls, S. D., Aug. 23 .- John W. Hutchinson, a prominent resident of this city, who returned from a visit to the cattle ranch of his son, situated about 50 miles west of Pierre on the Cheyenne river, reports that the range is rapidly becoming overcrowded by the rushing in of large numbers of cattle from Kansas and other "burnt" states to the southward. He states that no one can gain a proper appreciation of the number of these cattle. The importation from Texas has been greater this year than formerly, which is attributed to the shortage of feed in that state. The live stock brought in from Missouri and other Western states is being herded on lands east of the Missouri river in the north central portion of the state. Hundreds of herds can be seen in that portion of South Dakota feeding on the bunch grass and taking on fat

London, Aug. 23 .- A writer in The Standard, reviewing the British iron trade, considers there is every prospect of a considerable revival in the autumn and winter. Moreover, in consequence of the United States Steel corporation strike, American consumers of finished iron are placing orders in Great Britain on quite a large scale.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

London, Aug. 23.-A writer in The Standard, reviewing the British iron trade, considers there is every prospect of a considerable revival in the autumn and winter. A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

## QUESTION OF

A Committee of Aldermen Meet With City Attorney To Discuss Important Matter.

THE IMPROVEMENTS

But They First Decide to Go Over the Records and Investigate.

It would seem that the intentions that they have intended and intend in the future to make all the permanent improvements that is consistent with the condition of the treasury.

Last night a committee of alder men headed by President Crust met in City Attorney Crowell's office to discuss the matter and to get the attorney's opinion on some technical The different societies affiliated matters relating to permanent imdecided to first go over the records had charge and Rev. F. Lunden, of of the tax levy and what revenue improvements.

President Crust, on behalf of the council said to a representative of THE DISPATCH: "The remarks made by Secretary Elder, of the Minnesota Park Region Land Company, anent the matter of improvements of a permanent character in the city, were absolutely correct. We are very much obliged to Mr. Elder and Mr. Ferris for the interest they seem to have taken in matters of this kind, and I assure you that if half the taxpayers of the city would do the same something could be done.

### STATE FAIR OF 1901.

It seemed as if the Minnesota State Fair of 1900 would be "hard to beat but the plans for the 1901 fair quite set last year's into the shade.

Not content with last year's cattle show-the largest yet held in the world-the fair managers have secur ed for this year the national exhibits of both the American Short-Horn Breeders' Association and the American Hereford Breeders' Association. These are the two great cattle breed ing organizations of the world and they will each aim to have the finest display at Hamline. They will offer large premiums which will be supplemented by offers of the fair association. Auction sales of prize animals will be an attractive feature of these exhibits.

Naturally the other classes of stock Why not get the best? For the will be much in evidence, as none of the breeders will like to be left enassures us that the stock display will live stock show in the world.
